Customizable features

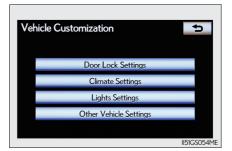
Your vehicle includes a variety of electronic features that can be personalized to your preferences. These preferences can be changed by using the “DISP” button, by using the Remote Touch, or at your Lexus dealer.

Customizing vehicle features

■ Changing by using the Remote Touch

▶ Vehicles without a navigation system

1. “Vehicle Settings” screen displayed on the Remote Touch screen. (→P. 366)
2. Select “Vehicle Customization” on the “Vehicle Settings” screen.

   “Vehicle Customization” screen will appear.


3. Choose a category displayed on the screen to display the settings.
4. Select the setting to be changed. Change each setting.

   For items that can be enabled/disabled, and for items with an operating time that can be changed, select “On” or “Off”, or select the desired operating time.

   For items with sensor sensitivity that can be changed, select “+” or “-” to choose the desired level, then select “OK”.
5. A message indicating that the settings are being saved will appear. Do not perform any other operations while this message is displayed.

▶ Vehicles with a navigation system

→Refer to "Navigation System Owner's Manual".

■ Changing by using the "DISP" button

→P. 109

Customizable features

Some function settings are changed simultaneously with other functions being customized. Contact your Lexus dealer for further details.

① Settings that can be changed using the Remote Touch

② Settings that can be changed using the “DISP” button

③ Settings that can be changed by your Lexus dealer

Definition of symbols: O = Available, – = Not available

Item	Function	Default setting	Customized setting	①	②	③

*1: If equipped

*2: The default setting varies according to countries.

*3: U.S.A. only

■ Vehicle customization

● When the speed-detecting automatic door lock and shift-linked automatic door lock are both on, the door lock operates as follows.

- When shifting the shift lever to any position other than P, all the doors will be locked.
- If the vehicle is started with all doors locked, the speed- detecting automatic door lock will not operate.
- If the vehicle is started with any door unlocked, the speed- detecting automatic door lock will operate.

● When the smart access system with push-button start is off, the entry unlock function cannot be customized.

● When the doors remain closed after unlocking the doors and the timer activated automatic door lock function activates, signals will be generated in accordance with the operation buzzer volume and operational signal (Emergency flashers) function settings.

■ When customizing using the Remote Touch

Stop the vehicle in a safe place, apply the parking brake, and shift the shift lever to P. Also, to prevent 12-volt battery discharge, leave the hybrid system operating while customizing the features.

CAUTION

During customization

As the hybrid system needs to be operating during customization, ensure that the vehicle is parked in a place with adequate ventilation. In a closed area such as a garage, exhaust gases including harmful carbon monoxide (CO) may collect and enter the vehicle. This may lead to death or a serious health hazard.

NOTICE

During customization

To prevent 12-volt battery discharge, ensure that the hybrid system is operating while customizing features.
